Smart Mobile Labs: Winners of the Unicorn Battle - Berlin

Munich, 5 February 2020 – Smart Mobile Labs is proud to announce winning the 182 Unicorn Battle in Berlin which took place on the 4th of February 2020.

The Battle kick started with key speakers then was followed by a three-minute pitch competition. The Judge Panel consisted of an array of Elite Venture Capitalists. The winner of the battle is invited to take part in the Worldwide Unicorn Cup in Silicon Valley California in April 2020.

Mr. Klaus Nagora, Co-Founder and Chief Technical Officer (CTO) as well Chief Product Officer (CPO) of SML pitched the company to the judges.

“It has been a great opportunity to pitch SML in front of the venture capital community and an even bigger reward to win the challenge. There was a lot of great competition there and there were some really cool companies and ideas in the challenge” said Mr. Nagora, *“SML has a strong team dedicated to developing a state-of-the-art technology of the future and I’m happy to see all our work paid off”*

The unicorn battle is organized by Startup.Network; a leader in bringing together the investor community with the Entrepreneurs, Experts and Start-ups.

About Smart Mobile Labs

Smart Mobile Labs is a start-up company based in Munich, Germany. Established in 2013 as a spin-off from Nokia SML has become a global leader in real-time many-to-many video transmissions. With its core technology EVO (Edge Video Orchestrator), the company enables secure, dynamic and high-quality distribution of video, audio and data streams over the mobile network – with a maximum latency of 300 milliseconds. Smart Mobile Labs uses its unique technology to create unprecedented solutions for sports & event venues, public safety and connected cars. In these areas, the startup is a partner for international brands, such as Nokia. www.smartmobilelabs.com
